PROFILE

As a skilled Software Development Engineer, my objective is to secure a challenging Web Development position where I can utilize my technical acumen and programming proficiency to craft cutting-edge, responsive web applications. My ability to quickly assimilate new information, meticulous attention to detail, and unwavering passion for delivering user-friendly solutions make me an invaluable asset to any team.

WORK EXPERIENCE

Intern

Cognizant, Bangalore   Feb 07-Jun 30

- I have experience working with various JavaScript libraries such as Express, Node, and React.
- successfully completed projects like a web application for vehicle rentals and an online bookstore application, utilizing technologies such as MongoDB, ReactJS, NodeJS, and ExpressJS.
- Got to know about the project release through Agile Methodology.

PERSONAL PROJECTS

Vehicle Rental Web App

Cognizant, Bangalore   April 23- Jun 23

- Developed a dynamic MERN stack vehicle rental web app, integrating user authentication, real-time availability updates.
- It offers features such as user registration, vehicle listings with detailed informations, search and filtering options, booking and reservation capabilities, user reviews and ratings, and an admin panel for efficient management.
- Collaborated with a team to deliver a seamless booking experience, leveraging agile methodologies and adhering to coding standards for optimal development.

Online Book Store

OUTR, Bhubaneswar   May 2023

- The online bookstore web app is a user-friendly platform built for purchasing books online.
- It offers a wide selection of books across various genres. Users can browse, search, and place orders securely.
- The app provides a smooth shopping experience, making it convenient for book lovers to explore and purchase their favorite titles online.
